

2009 Yamaha Zuma 125 M-2 V.A.L.E.™ Full Systems

Orange County, CA - January 2009

Two Brothers Racing launches all-new product line of Top Level scooter exhaust systems to meet performance demands of new scooter buyers.

As the fastest growing segment in the motorcycle industry, scooters have finally arrived in full force in the United States. Buyers all over the country are looking to scooters as a form of practical, economical and environmentally friendly transportation as well as simple two-wheeled fun.

Two Brothers Racing (TBR) is now set to satisfy the performance needs of the scooter masses. Like all two-wheel enthusiasts, scooter owners demand crisp throttle response, maximum horsepower and cutting edge style from their ride. Two Brothers Racing delivers with their new series of USA-made quality scooter exhaust systems.

“With the same passion for performance as our custom Sport Bike, ATV, UTV and Dirt Bike systems, our scooter line easily elevates the common stock scoot’ to Top Level TBR standards,” Jeff Whitten, Vice President of TBR said. “Plus, these are insanely fun to develop!”

“The Yamaha Zuma is one of the most popular scooters in America and scooters sales in general are going through the roof at dealerships from coast-to-coast. It makes perfect sense to use the Zuma 125 as the flagship for our exciting new scooter program.”

09 Yamaha Zuma Carbon Full System

The first of an entirely new product line; Two Brothers Racing’s Zuma 125 system consistently boosts horsepower over a range of more than 5,000 RPM, giving the popular ride nearly a **5% boost in max power** and substantial performance gains from idle to over-rev. Add in TBR’s expertise in quality construction and their use of aerospace quality materials and it’s easy to see why Two Brothers Racing exhaust systems are known as the Absolute Top Level.

Yamaha Zuma 125 systems are in stock and ready to ship. Full exhaust systems for many major models to be released soon! Check out www.twobros.com for the latest model releases.
